Email: ryanmellmer@gmail.com

Portfolio: www.ryanmellmer.com

Education:

Bachelor of Computer Science, Portland State University graduated 2017.

Professional Experience:

Owner - January 2023 - Present

Northwest Web Pros LLC (northwestwebpros.com), Beaverton, OR

- Created custom full-stack websites using Next.js and React for clients.
- Leveraged CSS modules and SASS to style react components.
- Developed REST API backends in Node

Software Engineer - Machine Learning Automation, January 2020 - Present

Plixer LLC, Kennebunk, Maine (Remote employee)

- Led initiative to develop and deploy supervised and unsupervised machine learning models and automatic retraining pipelines.
- Deployed applications packaged as Docker containers orchestrated by Kubernetes on vSphere, AWS EKS and Azure AKS.
- Programmed new microservice applications (Scala and Golang) to fit in the machine learning pipeline (backed by Kafka for data transmission and Elasticsearch as database).
- Managed CI/CD pipelines to build machine learning applications and infrastructure.

Software Engineer, May 2017 – Present (as needed)

Threeprong LLC, Oregon City, OR (Independent contractor)

- Developed various websites for clients using a variety of frontend and backend frameworks, including React, PHP, Phalcon, and plain HTML + CSS + Javascript.

Software Engineer - Applied Intelligence Pipeline, March 2016 – December 2019

Intel Security/McAfee, Hillsboro, Oregon

- Created new tools (C# .NET framework) to improve system efficiency and accuracy.
- Maintained and worked extensively with large-scale MongoDB and SQL Server databases.
- Leveraged BootstrapCSS, ASP.NET, and JavaScript to develop a new web-based dashboard to monitor the system's health.
- Developed various web services (APIs) and rapid prototype web applications.
- Worked on an automated machine learning pipeline integrated within our automation system.

Portfolio: www.ryanmellmer.com

Software Development Intern, March 2015 – March 2016

ON Semiconductor, Gresham, Oregon

- Developed a range of different web-based applications using C#, ASP.NET, and JavaScript. Debugged and tested programs for correctness and stability.
- Maintained product-line and engineering databases along with troubleshooting engineer systems.
- Interfaced with large-scale SQL databases including Oracle and SQL Server.

Skills

Backend Programming Languages: Go, Scala, C#, Python, Java, Node

Databases: PostgresDB, MariaDB, SQLServer, MongoDB, DynamoDB

Architecture: Docker, Kubernetes, Kafka, REST APIs, microservices, cloud-native architecture

Web Development Languages: React, PHP, HTML, CSS, JavaScript, Bootstrap, TailwindCSS
